

Installation of Virtual box and windows server 2022

Step 1: Start VirtualBox and create a new virtual machine by clicking on "New."

Step 2: Set a name and link the ISO image file.

The screenshot shows the 'Customize settings' window in Windows Setup. The background is a solid blue color. At the top, the title 'Customize settings' is displayed in white. Below the title, a white instruction text reads: 'Type a password for the built-in administrator account that you can use to sign in to this computer.' There are three input fields: 'User name' with the text 'Administrator', 'Password' with seven black dots and a toggle icon, and 'Reenter password' with seven black dots. At the bottom left is a circular arrow icon, and at the bottom right is a 'Finish' button.

Customize settings

Type a password for the built-in administrator account that you can use to sign in to this computer.

User name

Password

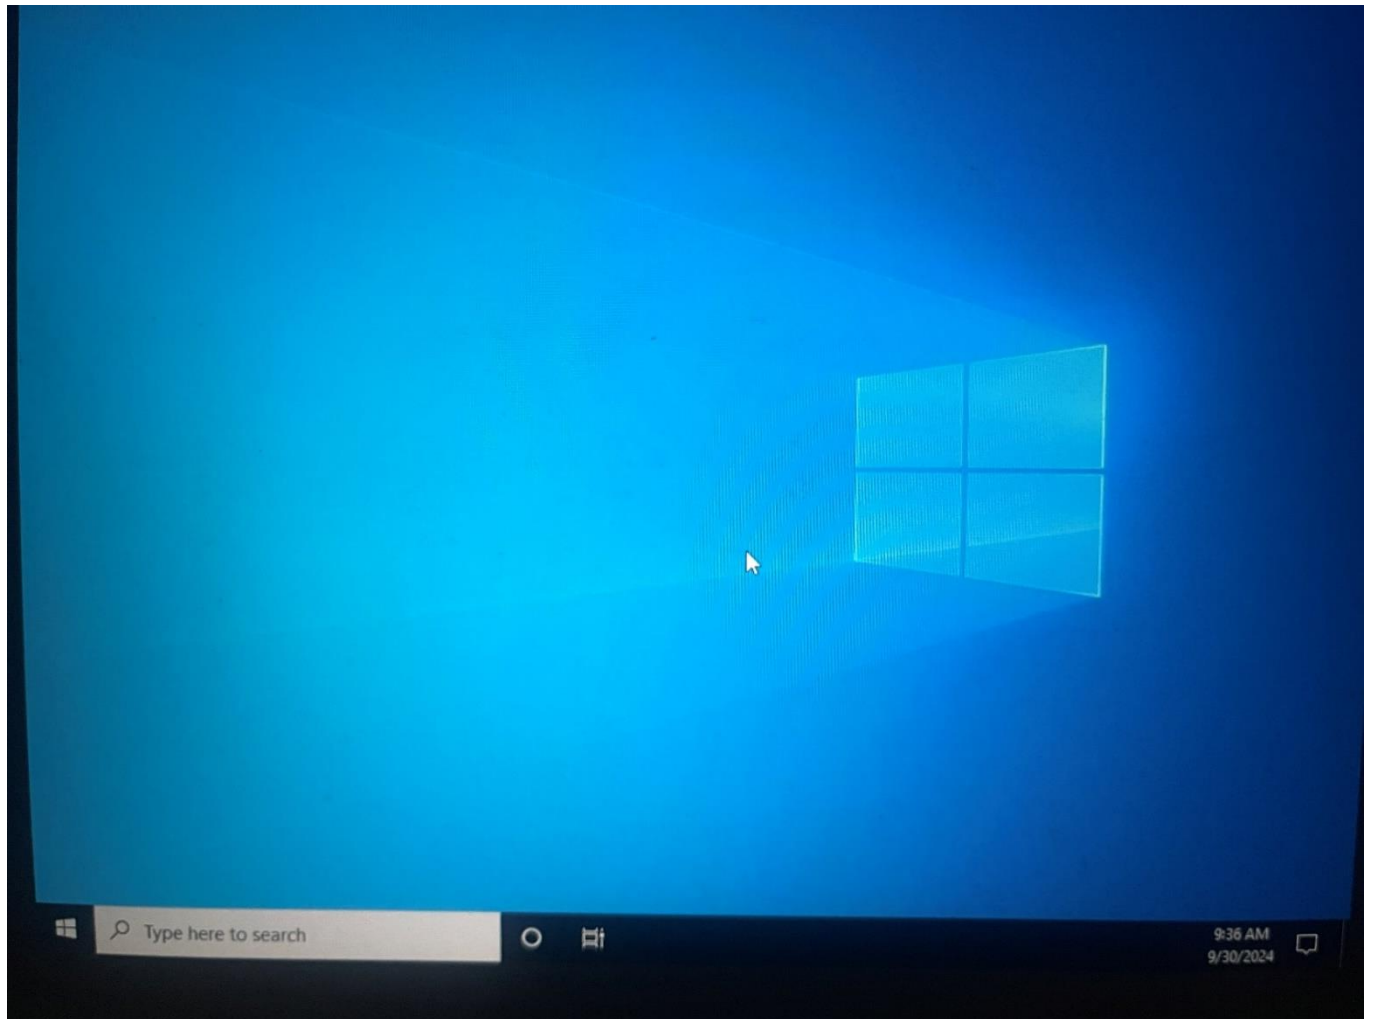

Reenter password

 Finish

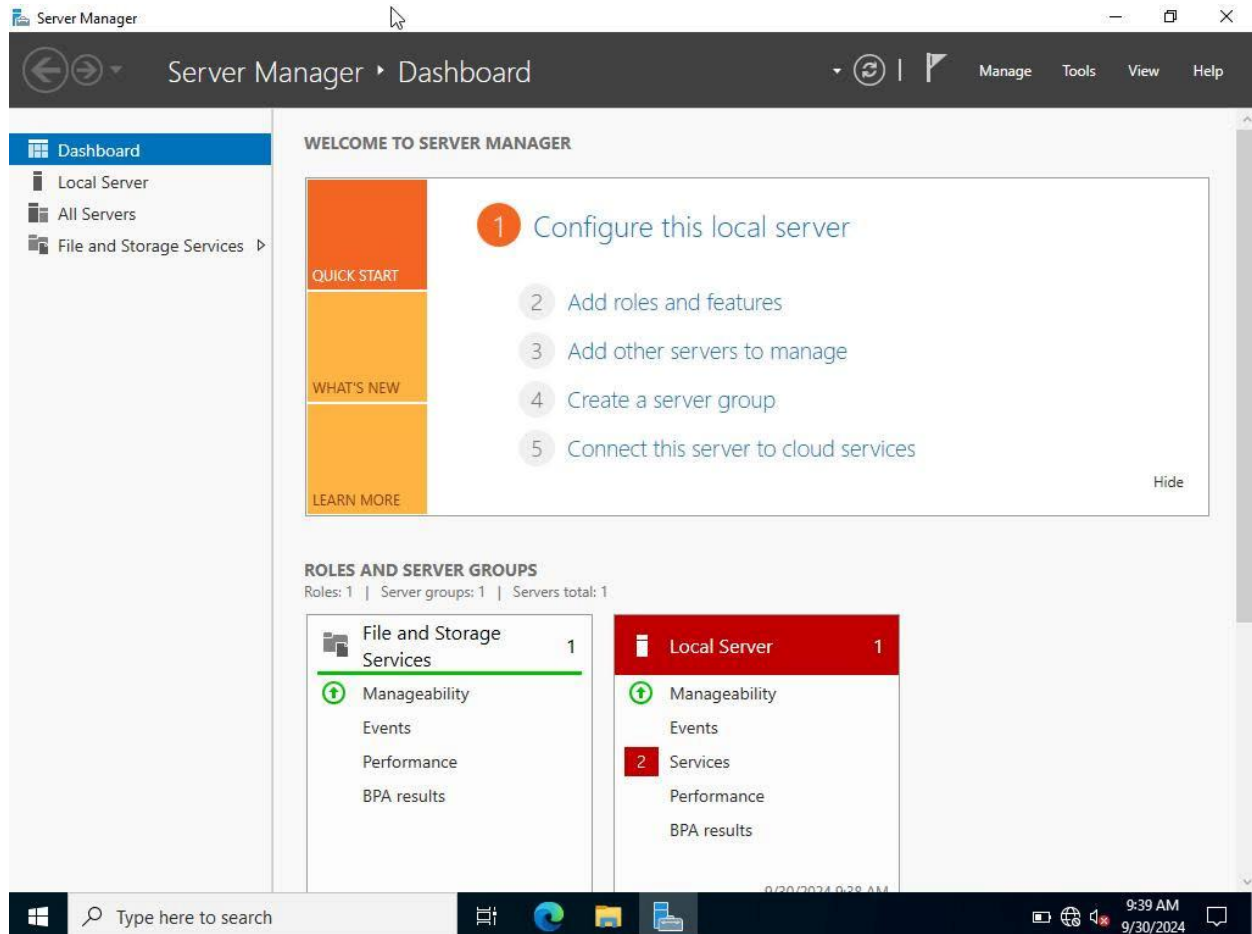

Step 3: For the edition, select “Standard Evaluation: Desktop Experience.”

Step 4: Check the box to “Skip Unattended Installation.”

Step 5: Proceed to install the server and choose “Standard Evaluation: Desktop Experience” again.

Step 6: Select the “Custom” installation method.
